Model-Defined Remapper: Virtual-to-Physical Topology Mapping for Chiplet-Based Architectures

MICRO 2026 Submission **#NaN** – Confidential Draft – Do NOT Distribute!!

Abstract

Keywords

topology mapping, chiplet, network-on-chip, virtualization, reconfigurable architecture

1 Introduction
2 Background and Motivation
2.1 Chiplet-Based Architectures
2.2 Virtual vs. Physical Topology
2.3 Motivating Example
3 Model-Defined Remapper
3.1 Overview
3.2 Problem Formulation
3.3 Mapping Algorithm
3.4 Hardware Support
4 Implementation
5 Evaluation
5.1 Methodology
5.2 Performance Results
5.3 Energy and Area Analysis
5.4 Scalability
5.5 Sensitivity Analysis
6 Related Work
6.1 NoC Topology Design
6.2 Topology Mapping and Virtualization
6.3 Chiplet Integration
7 Conclusion
